PROFILE

Full-Stack Web Developer leveraging a background in Capital Markets Finance and life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly web applications. Known amongst colleagues for strong wit and attention to detail, no matter the complexity of the project.

TECHNICAL SKILLS

- HTML, CSS, JavaScript, Git, Web APIs, JQuery, Bootstrap.
- Object-Oriented Programming (OOP) + Test-Driven Development (TDD).
- Express.js server frameworks & SQL (Structured Query Language) database creation.
- MERN: MongoDB, Express.js, React, Node.js.

PROJECTS

Book Garden | <https://jason-ahmed-123.github.io/groupproject1-book-garden/>

GitHub: <https://github.com/Jason-Ahmed-123/groupproject1-book-garden>

- Book Garden is a website that allows users to search for books based on various preferences.
- My core responsibilities for this project were the main design and user-interface (UI).
- Built with: HTML, CSS, JavaScript, JQuery, Bootstrap.

future.RAM | <https://wicked-ghoul-96440.herokuapp.com/>

GitHub: <https://github.com/Sean-Sanneman/future-ram>

- future.RAM aims to be a life planner app in which users can log-on, get inspiration for the day, set goals, and keep a digital diary to be able to look at when needed.
- My core responsibilities for this project were the main user-interface (UI) and API functionality.
- Built with: JavaScript, Bootstrap, and the MERN stack: MongoDB, Express.js, React, Node.js.

Collab | <https://immense-wave-96747.herokuapp.com/>

GitHub: <https://github.com/Sean-Sanneman/collab>

- Collab is a website developed to help musicians find other musicians to collaborate with remotely. Collab will eventually become a social networking platform where musicians can communicate about the projects they are working on, share project files, find people to record tracks for their project, etc.
- My responsibilities for this project were the main design, user-interface (UI), and search functionality.
- Built with: HTML, CSS, JavaScript, Bootstrap, Express.js, Node.js.

EXPERIENCE

Donnelley Financial Solutions (DFIN) | Financial Services Account Specialist — 2007 - 2019

- Collaborate with corporate attorneys and Certified Public Accountants (CPA) to assemble legal compliance documents for Securities and Exchange Commission (SEC) filings.
- Draft and compile financial statements and reports using Excel, Word.
- Compose, edit, and mark-up documents using Adobe Acrobat, Illustrator, and Photoshop.
- Accurate conversion of documents to HTML and XBRL for electronic transmission to the SEC.
- Provide customer support and demos for SaaS (Software as a Service) applications for XBRL-tagging.

EDUCATION

UCLA Extension - Certification in Full-Stack Web Development - 2020

University of Kent at Canterbury, England — BA in English Language and Literature
